Subject: Microsoft Settlement

It is past time to stop wasting our tax dollars (and time) in going after a company which has created many thousands of jobs both directly and indirectly. Microsoft, its employees, shareholders, and the American taxpayer have been severely injured by the years of anti-business prejudice of the Clinton administration. Also, this case was a deterrent to investors and entrepreneurs in the high-tech industry. Let consumers decide who wins or loses on Wall Street, rather than judges and bureaucrats. I strongly urge that the Microsoft settlement be recommended by the DOJ to the court.
